- Ceramic product has individual differences, such as size and color shape. ■ Adjust size difference during installation. ■ Use elastic adhesives for tiles.
- Recommend to set about 10mm joint space for both vertical and horizontal directions in order to make the product forms appear beautiful.
- Please be careful for Grayish Black(Glazed) color products when installing them. It is easy to get dust and dirt which are hard to remove.
- The glaze character of Grayish Black(Glazed) is rough surface. Please avoid using clothes for wipe cleaning not to let the fibers on the surface.
- Grayish Black(Glazed): Avoid cleaning with acid materials, it will damage the glaze.
- Be careful for getting dirty when installation of unglazed Beige color because it is easy to get dirty.
